This certifies that **500,000** raw resume files (**47.3 GB**) were permanently deleted from RecruitProof infrastructure within 24 hours of pilot delivery.

Each file was SHA-256 hashed before deletion. The full hash manifest is preserved in the accompanying JSON certificate.

Remaining artifacts:

- 3 shortlists (300 candidate records, JSON)
- hidden_candidates.csv (12 records, no PII)
- failed_files.csv (12,580 records — filenames only, no PII)
- proof_run_001_report.pdf
